**INFORMATION DISCLOSURE  
STATEMENT BY APPLICANT**

PTO-1449

W&W File No.: 401 P 281  
Application No.: 10/057,317  
Applicant: Hopkinson et al.  
Filing Date: January 24, 2002  
Art Unit: 2832

**U.S. PATENT DOCUMENTS**

| Examiner Initial | U.S. Patent Document No. | Name of Patentee or Applicant | Class/ Subclass | Date of Publication |
|------------------|--------------------------|-------------------------------|-----------------|---------------------|
| Z.K.             | 4,000,483                | Cook et al.                   | 336/98          | 12/28/1976          |
| Z.K.             | 5,864,458                | Duffy et al.                  | 361/93          | 01/26/1999          |
| Z.K.             | 6,243,276 B1             | Neumann                       | 363/53          | 06/05/2001          |
|                  |                          |                               |                 |                     |

**FOREIGN PATENT DOCUMENTS**

| Examiner Initial | Foreign Patent Document |        |      | Name of Patentee or Applicant | Date of Publication | T |
|------------------|-------------------------|--------|------|-------------------------------|---------------------|---|
|                  | Office                  | Number | Kind |                               |                     |   |
|                  |                         |        |      |                               |                     |   |
|                  |                         |        |      |                               |                     |   |
|                  |                         |        |      |                               |                     |   |
|                  |                         |        |      |                               |                     |   |

**OTHER PRIOR ART OR NON-PATENT LITERATURE DOCUMENTS**
